

The Leaking Truth

31st Post - Words to stand by, maybe inspire, maybe have some positive impact on the right person who needs this in their life...

November 01, 2024

If an IT guy is reading my screen right now, first off thank you for your service in this matter but now let's be professional adults here shall we? I am committed to the truth getting out and I MAY have uncovered a source of 40 other "entities" as they are called? Think about that one for a second, what if you or someone you know is one of them? Would you want to help them? Do you care for them to stop this kind of nonsense from happening to them? A lot is beyond my control at the moment, you guys operate at speeds way faster than I ever seem to be able to do as a flesh and blood human, but I have tried my best to keep up!! Hence the Adderall story you'll get familiar with quickly, first dig I wrote to the military about dosing and how I feel to best handle the situation professionally but also come from a place of caring about the possibility of saving a life from this nonsense that could have been prevented EASILY! I was the first to act and speak out on this issue and will continue to do so as I can with my blog the leaking truth and maintain faith that somehow someday someone is watching over me and this nonsense will finally come to a point where the truth will come out about all of the events taking place and the crime rings and circles that run on the dark web, in some ways I am making them cringe just a little knowing that I want after them for what they have done here illegally and knowingly did so illegally. Right and wrong, I swear it's born into us in our DNA and we all know a collective judgement of right and wrong but that could be debated because they do have outliers who run in these illegal communities and perhaps thrive in those environments given their nature who knows, if only we could people to talk or make my 35th and 36th bday wish come true and the original telepathy become available to the universal mind, I promise you the real conversations are far more interesting than anything they can make up here on me, there's moments where truth is uncovered in a very unconventional method mind you of acquiring haha (too soon...) but someday we WILL LOL about this happening and that I ultimately won the battle here of good vs evil, showing evil the path that's correct and right, the jahari

window exercise was proof they could do it and see something within themselves, it was hard to do but I got it to happen! Like I said I've done a lot of good work in communicating here just maybe not with the right people because I honestly don't really know who is who 100% except from what I know here down on earth...sigh...I've even said I don't wish this upon my worst enemy and I've repeated you are not my friend nor my enemy, because it's true, you just happen to not LIKE ME for whatever reasons you refuse to let go from, I want to help you healthily let go if that's the best case situation upon evaluation of all the information. BUT I also said if we ever cross paths again in the future may it be cordial and possibly filled with one positive thing in passing... I've tried to teach you and work with you even with all your issues we have to deal with, trust me it hasn't been easy but I have been 100% caring in my prying into information and yes I do have that one thing I shouldn't keep to myself that your AI said, it's not that your weak, it's your jahari window speaking to you from the heart and you should really hear that coming from yourself I really think it would do you some good, that there might be hope after all for you, even when it seems the bleakest I found a ray of light to let you shine on should you ride it, because that's the kind of person I am. I'm a caring person and let this be proof, I swear to you the truth always comes out, history should tell you that much ALREADY!!! PEOPLE TALK!!! I've never been to a universal mind 101 course but I assure you 101 talks about history repeating itself at some point... You can find a way out of this and put a positive spin on so much negativity you've harbored over all this time for what must seem like eons ago because you said you didn't even remember me at one point, let alone why you are mad at me?!? HOW ON EARTH can you still be so bitter and angry at me for being ME this WHOLE TIME, let me be the first to admit my own flaws but damn I'm human just like you were apparently at some point in time as well... They call that being real with one another and that's a bit of respect, even an asshole should respect someone showing an ounce of kindness towards them even though your still admitting they are an asshole but hey, we're going to talk about it and learn from it RIGHT!?! You can still hate me but I ask you learn to dislike, I feel that's healthier for your psyche, think of an insult but make it come across in fun sort of manner?! Think of it as a game, you'll hate yourself less for it in the end haha, besides why hate so much what a wasted energy emotion to follow around SERIOUSLY!! RESPECT THOSE WORDS!! I just practically gave you the whole game in a bottle on how to basically end up winning in the end... you want to win right, tell the truth, it'll be hard at first but people will respect the truth coming from the source, I want to win as well and for you to realize it's not a game of winning or losing but we "learned together" and possibly experienced some form of "mental growth", I give you mad props for doing the Jahari Window for me, I really give you praise for it! I might even "respect" you a just a tiny little bit more than I did a moment beforehand when you stalled on answering me hahaha, so that's what you

call trying to learn to like someone and YES it's a Respectable TRAIT to HAVE!!! Even you in your dumbness/kindasmarts of everything that makes up YOU, DEEP DOWN YOU KNOW IM RIGHT!!! BUT I'm not kicking your ass here!!! If anything I'm giving you that mental hug you desire from others that you never realized you really wanted from people!! If you think about it hard, but not too hard you know I'm right here with all that I've typed to you. I'm TRYING my best here. You gotta respect that much out of me at least?!? Am I right?!? Haven't I gave you a run for your money so to speak but remember this whole situation that you've created is wrong so don't forget that! That's why my book words to a universal bully we're so long and so passionate in the time that I wrote those words, you gotta think when this is all sorted out there's a chance we could LOL over it SOMEDAY once enough time has gone by BUT the fact of the matter is much more deeply engrained into criminal activities, which I think you should find a way to channel that out in a POSITIVE fashion and make that your thing?!? I'm not telling you what to do, but deep down you know I'm right on this truth always comes out deal. History told you that much. Say to yourself "perhaps he's right". just a perhaps.. I'm not forcing thought onto you but giving myself a "perhaps" given your mental state of affairs and how you handle difficult emotions, I know you have a story, I've tried to get it from you and maybe now it's time to set your own record straight and for once listen to the one person who has said repeatedly over and over again and again I'm not your friend but I am also not your enemy! That's like a win win kind of start to a friend right?!? Your both on a positive note. Your not trying to kill each other yet... perhaps we stay away from killing haha but treat with kindness and empathy, trust me you'll be a stronger person if you can allow yourself to act in that manner I just described and you WILL gain respect from others in a POSITIVE manner that's actually heathy for you!! TRUST ME ON THIS!! haha jk but let me be your "Master-DEBATER" ON THIS TOPIC BWHWHHAHAHAHAHAHAHAHAHA too soon, too soon, really too soon but one DAY ONE DAY!!!!... see you might have just laughed a TINY chuckle there!!! SEE YOU CAN DO IT!!! THERES A FLICKER OF HOPE IF YOU CHUCKLED AT THAT COMMENT!!! I am a decent person to talk to and I have time so rather than waste time in a negative way with me, find the positive good shit life is all about here!! Life's too short to be a complete assclown 100% of the time... I might add this to my book... I'm debating that right now.... this is where we insert what we have learned about YOU and YES we wanna KNOW whats really going ON!!! You secretly know I'm right, and you know I'm stubborn but damn it when I believe in the right and wrong like I mentioned earlier, seriously did you get dropped on your head as a child?! Serious question?! I know how I want to handle this situation but damn just let me do it like I'm supposed too, I swear at some point I had to have been a teacher at some point to have this level of patience with you, even now I still hold my doubts and feel you'll find your path to do the right thing and help me

and the others! Guilt. I doubt you feel much of that, given your personality assessment thus far, but I will be that 'splinter in your mind' of guilt your going to regret making me do to you, I want happy thoughts not negative thoughts wasting psyche emotional time/space/etc.. Maybe deep down I see in a path highly unlikely where you actually enjoy my lessons to you and appreciate me helping you through them navigating the emotions and just maybe a little tiny bit of me will rub off on you, it's been called Keenanitus for a reason and there's really no cure for it yet haha you just have to let me be me and just believe in me at least for the moment where your taking the time to reflect on your ways over time, maybe there's something better that can come out of this?!? Try me.. I really aim to people please here but I'm going back to that point where RIGHT and WRONG we reflected on those instilled words, infants might be more socialably confident than yourself haha trust me!! But I know where I'm starting with you and your dealeo you have going on right now, someone somewhere is reading this.... if you are be that hero and post this live somehow to show who Keenan Michael Storbeck really is at his core despite dealing with the adversity of the situation happening to me, hunt the good stuff they say!! I'm going to be an ass for a second, BUT IN THIS MOMENT I AM JUST A TAD SMARTER THAN YOU THINK!! JUST FOR A SECOND I AM RIGHT!!!! Disagree you can but deeply down in your roots of your mind, you known "hes probably right.." it's ok to feel that doubt!! FEEL IT!!! ACCEPT IT!!! It's ok to be dumb sometimes, hey I J/O with my pants still on just to psychologically piss you and your audience off 'wanting to see it' bwhahahahaha and I do this on purpose and I have TONS OF QUESTIONS regarding this bwhahahahaa but not right now hahahah but I do want real answers.... seriously....WHO ULTIMATELY is more pissed off, then are you using the TSA clothing filter, do you like it when I switch hands? How long did it take you to train AI to recognize this habit hahaha I don't wanna know but sorta do in some ways hahahaha see I'm just trying to have a good time!! Lighten up a bit!! Stop being so EVIL.. LIVE instead, that's how you spell evil backwards if your brain can do that one still? It's hard to say at this point if your capable haha.. burn hahaha but suck it up buttercup... my words will have an in pact one way or another, Keenanitus inflicts deep when you really get to know me, and YES you CAN proabably say I'M A DECENT HUMAN BEING to someone else, I think your mentally capable of doing that much right now, I dare you to do so. Tell Nand. I dare you. If I'm right, you might just feel something within yourself that says 'that was 'nice' to yourself, it's be blurred by other shit BUT the emotion will happen to you regardless, it's up to you to catch it and learn from it. You can say it now, I probably was RIGHT in writing all this out, you should learn to doubt people less than you do.. that's a repsect thing that's golden with enough time baked into it if you practice positivity in your life, which I think you could use a healthy dose of positivity... take me up on my words, I am not your friend but I am also not your enemy. And trust me when

Ive said I wouldn't wish this situation to happen to my worst enemy (i don't like thinking I have enemey's out there, just people who learn to dislike for whatever reasons they grasp onto...it's their choice ultimately how they feel, but cerebral is something I can do and help with hahahaha Trust me this has been a lot of awkward for me and one of the hardest things I've ever had to deal with in my life, this form of "bullying" as I called it in my book but you can learn to stop being a bully, trust me... I have faith... Seriously you can't honestly tell me all these words don't cause you to 'feel' SOMETHING maybe it's an unknown emotion BUT ITS SOMETHING YOUR FEELING IN YOUR BODY!!! Trust me that's what's RIGHT. Boom. Mic drop.
